DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12, 14, 15 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Ninomiya et al. Ninomiya et al teaches an optical system having, from the object side to an image side respectively, an aperture stop (Figure 1, element 1), a first lens having positive refractive power and at least one aspheric surface (page 1 paragraph [0017]), a second lens which is a meniscus lens having a convex image side (Figure 1), a negative refractive power and at least one aspheric surface (page 1, paragraph [0017]) as claimed in independent claim 12 and further satisfying the conditional expressions as claimed in independent claim 12 and dependent claims 14 and 15 (Table 3, example 10). Ninomiya et al also teach the first lens having a convex image side (Figure 1) as claimed in dependent claim 20.

Allowable Subject Matter

Claims 1-4, 6-11 and 21-27 are allowed.

Art Unit: 2873

Claims 13 and 16 - 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The reasons for indicating allowable subject have been set forth in the Office Action mailed May 2, 2005

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
